

REAL ID Requirements

You must provide proof of your identity totaling 6 points. You may use any of the documents listed below that have point values or please refer to <https://dmv.ny.gov/org/forms/id44.pdf>

If you are married and using proof of citizenship in your maiden name, we will need to see a certified copy of your marriage certificate. We must make the correlation between the citizenship documentation and the name you are currently using. If your passport is in your married name, we do not require the marriage certificate.

If a middle initial appears on your NYS Driver's License, we will need proof of the full middle name (i.e. birth certificate or passport)

Required	Document Type	Points
